

Education is child's play

A WORLD WIDE INNOVATIVE PROGRAM FOR ENHANCEMENT OF THINKING ABILITIES AND LIFE SKILLS THROUGH STRATEGY AND MIND GAMES

Mind Lab is an innovative and research based program that helps children ages 4-14 enhance their cognitive, social and emotional skills using internationally-acclaimed thinking games. These games encourage deduction and induction procedures, teamwork, communication and the art of graceful winning and losing. **Mind Lab has developed a unique approach that fills the gap between school education and real life challenges by teaching students how to think rather than what to think.** During the course the concepts are applied to real life situations, allowing children to make transference from game scenarios to real life experiences and scholastic achievements. **The extensive research conducted by Yale University endorses that the Mind Lab Method significantly improves math and verbal scores as well as other important thinking and life skills.**

Registration is now open for the Fall session Sept 9th – Dec 2nd

(No class Nov 11th)

Students grades Pre K - 2nd Monday's 3:00 - 4:00 pm

Total fee for the 12 week course is \$180
