Piano Program

Making kids smarter

2 Yrs. old & up

Lessons at School or Home

# Piano lessons for kids

*Our Piano lessons are motivating and fun. Your kids will enjoy learning music theory, piano techniques, beautiful songs and more. The Kids-n-Notes Piano program uses a unique teaching method that encourages students to want to learn. In a few months the child will be reading music, playing songs and most importantly, enjoying the music.*

*We teach children as young as two years old to eight years old. The classes are private one-on-one with the teacher.*

*We offer classes once or twice a week. This special program is being offered by a Professional in childhood Education with 23 year of experience in teaching and tutoring.*
